

Environmental Policy

Breckenholme Trading Company (B.T.C.) believes that we have a responsibility to care for and protect the environment in which we live and operate. We are fully committed to improving our environmental performance across all our business activities and will encourage our suppliers to do the same.

B.T.C. recognises our key environmental impacts are any changes to the environment, whether adverse or beneficial, wholly or partially resulting from our environmental aspects. Our key impacts are in the areas of: -

- Waste Generation
- Transportation
- Procurement
- Energy Use
- Emissions to air/water

We will strive to:

- Adopt the highest environmental standards in all areas of operation.
- Assess our organisational activities and identify areas where we can minimise impacts.
- Minimise waste through careful and efficient use of all materials and energy.
- Purchase sustainable products wherever feasible.
- Publicise our environmental position.
- Train employees in good environmental practice
- Reduce risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.
- Adopt and environmentally sound transport strategy.
- Aim to include environmental and ethical considerations in investment decisions.
- Continually assess the environmental impact of all our operations

Once it has been established where B.T.C.'s activities affect the environment a plan can be implemented to monitor and reduce the effects.

B.T.C. will periodically review performance and publish these results.
